What Powers It

REJUVENIQE S™:

MONAT-famed proprietary signature is a cornerstone of skin looking its best at every age. This clinically proven ingredient combines the nourishing and revitalizing powers of 17 botanical oils and extracts with a patented, activated oil from olive and jojoba seed extract to infuse skin with immediate and long-lasting moisture, hydration, youthful resilience and instant luminosity.

Peptide:

Known for its skin rejuvenation ability, this bio-active building block helps support skin's natural collagen to reveal tighter skin, improved texture, and an overall ageless appearance. This MONAT exclusive peptide helps the skin to appear more cushiony, plump, supple, and youthful from within.

Plant-Based Stem Cells:

These regenerating phyto-elements extracted from moss help lift, tighten, support collagen and defend skin by providing antioxidant protection to guard against oxidative stress caused by the sun and other environmental elements. This powerhouse ingredient offers a full spectrum of benefits for luminous, youthful, healthy-looking skin.

Natural Fruit Acids (AHAs):

MONAT superfruit AHAs from sugar, mango, banana and cajá to energize, brighten, and refine skin. This blend of glycolic, malic, citric, mandelic, and tartaric acids has different molecular weights that help support more rapid natural cellular turnover to diminish the appearance of age spots, fine lines, and wrinkles while simultaneously refining the appearance of pores and promoting radiance for healthy-looking skin.

Kakadu Plum:

Australian multitasking superfruit containing one of the most concentrated, potent natural sources of vitamin C on earth. Also containing antioxidants, it helps brighten complexion, reduces the look of hyperpigmentation, and protects skin from harsh environmental aggressors such as pollution while promoting more elastic, plumper skin. MONAT Kakadu plum is sustainable, renewable, and certified organic.
